

THE MISSION OF SHAPE RECLAIMED

Category: [Uncategorized](#)

Our mission at SHAPE ReClaimed is to transform healthcare, one patient at a time. We partner with like-minded practitioners from a variety of disciplines that help you cleanse your body, stabilize your metabolism and live your ideal life.

Our logo is a perfect representation of this mission. Why? Because trees symbolize strength and character; being grounded and deeply rooted; and being strong enough to withstand storms, yet able to bend and sway with the changing seasons. The founders of SHAPE ReClaimed, Dr. Todd and Linda Frisch, love trees and have made them a symbol in many areas of their lives.

SHAPE ReClaimed's logo symbolizes the connection of all living things on earth. It's a familiar design in science, religion and philosophy. The biblical book of Genesis tells us that the tree of life originated in the Garden of Eden at the dawn of time. For all of us at SHAPE ReClaimed, the tree is a symbol of our pursuit of health and helping people grow and change for the better.

The leaves on this tree represent those whose lives have been and will be changed with the SHAPE Program. The large branches intertwined in the trunk represent our Four-Branch Approach to Wellness:

1. Decreasing inflammation
2. Detoxing and cleansing
3. Enhancing immune function
4. Releasing toxic weight

We believe the SHAPE Drops and SHAPE Program are gifts from God given to Dr. Todd to share with humanity. They are a blessing for all his years of dedication and faithfulness in helping God's family heal. Dr. Todd and Linda's life's work, and now SHAPE ReClaimed's mission, is to transform healthcare, one patient at a time.
